Errata below are for Protocol Document Version V9.0 - 2019/03/13

Errata Published*	Description
2020/09/28	In Section 2.2.9.1, XML Provisioning Schema, the first example of XML code has been augmented with a second example showing the device context as well as the user context illustrated in the first example, and the surrounding language changed to reflect the two examples. See the attached diff pdf file for details. Changed from: The following schema is an example of the XML required for the provisioning document. The explanation for each field in the document appears inline in the example as XML comments. ... Changed to: The following schemas are examples of the XML required for the provisioning document. The explanation for each field in the document appears inline in the example as XML comments. The following XML is a provisioning example for Mobile Device Management (MDM) in user context. ... The following XML is a provisioning example for Mobile Device Management (MDM) in device context.
